

## 832 Price Sale Catalog

Macy's

VICS Version 4050

### VICS Document Mapping

Effective 06/01/07

The following is an outline of what is expected when receiving VICS 832 Price Sales Catalog information from a vendor. For definitions of the segments, please see the VICS retail industry conventions and guidelines for EDI.

Note: Our preferred method of receiving UPC catalog information is via Inovis.

Deviation from the standard VICS 832 format may negate our ability to receive data from trading partners. Price sales information is required in VICS 832 format.

Note: Extended data elements have been added to this mapping.

To test the 832 document, contact the Macy's EDI Support Center at (678) 474-3595. The following segments are based on VICS 4050. Refer to individual manuals for differences in standards.

The former [Uniform Code Council](#) (now GS1) can be reached at (800) 543-8137 for further assistance.

The [National Retail Federation](#) can be reached at (202) 783-7971.

Note: Functional Acknowledgments are required from vendors for all documents sent by Macy's.

Macy's supports customized furniture ordering. Refer to the LIN and PID segments of this document.

### Segment Summary

#### Header Segments

M*/O*	Segment	Name
M	ST	Transaction Set Header
M	BCT	Beginning Segment for Price/Sales Catalog
M	DTM	Date/Time Reference
M	CUR	Currency
M	N1	Name
M	N2	Additional Name Information
M	N3	Address Information
M	N4	Geographic Location

#### Detail Segments

M*/O*	Segment	Name
M	LIN	Item Identification
M	DTM	Date/Time Reference
M	CTB	Restrictions
M	PID	Product/Item Description
M	TD4	Carrier Details
M	LDT	Lead Time
