

# Quick Tip

## Vendor Visibility: Inbound Container Notification Effective 12/11/2013

### What

The **Vendor Visibility** application has been enhanced. New fields have been added to help provide more accurate information related to product availability and to ensure the best customer experience possible for our retail customer. The ability to update ETA fields as needed is now available. (i.e. Estimated Port Arrival date, Estimated Delivery Date to Macy's DC etc.)

### Inbound Container Notification

Once you logon to macysnet.com select **Inbound Container** from the left-hand toolbar. Each entry represents 1 container. **(Note: New fields highlighted below)**

#### Auto Populate Fields

- Vendor Name
- Total Number of Cartons of Furniture on the Container (calculated)

#### Data Entry Fields

- Point of Origin (select from drop down)
- Point of Entry (select from drop down)
- Macy's distribution center (select from drop down)
- Vessel (name of vessel)
- Ocean Container Number or Domestic Trailer number
- Ocean Container Booking Number
- Departure Date (date when container is loaded and sealed at factory)
- Anticipated Vessel Ship date (date vessel is scheduled to leave overseas port)
- Estimated Port Arrival date
- Estimated Delivery Date to Macy's DC

(See Appendix A for valid Origin and Entry Ports)

Broker contact information should be filled out at the time of initial data entry. (Note: Broker may be the same as the manufacturer in some cases).

One or more Purchase Orders may be included in a container. Each PO must be listed separately along with the Bill of Lading number (BOL) and total number of cartons for each purchase order. **(Note: This should match the VICS 856/ASN count)**

### Contacts

If you have additional questions, please contact:

Brenda Syesta; Director of Big Ticket Operations

# Quick Tip

The screenshot shows a web browser window with the URL <http://f063vweb05/AP/APinit.html>. The page title is "Macy'sNet - A Service of M...". The browser's address bar shows several tabs, including "Macy'sNet", "Google Voice", "Google Maps", "Parcels Web-Frontend", "Parts for KP26MEXDP4 K...", "Travel", and "Live Ships Map - AIS - Yes...".

The main content area is titled "Inbound Container Notification" and includes the following sections:

- Shipping**
  - Shipment Request
  - Shipment Status
  - Shipment Change
  - PO Research
- Import**
  - Inbound Container Notification
  - Open / Submitted Notifications
  - PO Tracker
- Home**
  - Update Your Profile
  - System Status
- macysnet vendor references**
- Vendor Standards**
  - MMG
  - Regulatory Alerts
  - Routing Guide
  - EDI
  - Contact Us
  - Help

The form itself contains the following fields and sections:

- Origin/ Destination Information:**
  - Vendor Name: Account # - Vendor (dropdown)
  - Point of Origin: Name - Code (dropdown)
  - Point of Entry: Name - Code (dropdown)
  - Destination Distribution Center: Store # - DC Name (dropdown)
  - Vessel: (text input)
  - Ocean Container Number (ex. AAPL1234567) or Trailer (Domestic) Number (ex. 53147): (text input)
  - Ocean Container Booking Number (OCBN #) - provided by Transportation partner at time of booking: (text input)
  - Total Number of Cartons of Furniture in the Container / Trailer: 0 (Sum of # of Cartons from Purchase Order Information below)
  - Departure Date: (text input) (mm/dd/yyyy)
  - Anticipated Vessel Ship Date: (text input) (mm/dd/yyyy)
  - Estimated Port Arrival Date: (text input) (mm/dd/yyyy)
  - Estimated Delivery Date to Macy's DC: (text input) (mm/dd/yyyy)
- Broker Information:**
  - Company Name: (text input)
  - Contact Name: (text input)
  - Contact Phone Number: (text input)
- Purchase Order Information:**
  - Purchase Order Information \* (text input)

Instructions at the bottom of the form state: "Please enter your Macy's or Bloomingdales purchase order number(s), BOL(s), and Number of Cartons (when totaled, will equal the Total Number of Cartons of Furniture in the Container/Trailer)."
