

Revised May 4, 2015

April 2, 2015

Vendor/Carrier Partner:

Electronic Data Interchange (EDI) technology is critical to the mutual success of our organizations. All data transmitted on all EDI documents must adhere to VICS/GS1/X12 industry standards. This includes ensuring that the version transmitted in the ISA and GS segments match. If the ISA12 and GS08 do not match or the ISA11 sub-element separators are incorrect, the EDI document will fail at Macy's translator, which may result in the inability to use the EDI document. When EDI documents cannot be utilized, processing is delayed and the corresponding expense offsets are generated. Please use the chart below to ensure your documents use the correct translation attributes.

	Version 004010			Version 004030			Version 004050			Version 005010		
	ISA11	ISA12	GS08	ISA11	ISA12	GS08	ISA11	ISA12	GS08	ISA11	ISA12	GS08
VICS	U	00401	004010VICS	^	00403	004030VICS	^	00405	004050VICS	^	00501	005010VICS
X12	U	00401	004010	^	00403	004030	^	00405	004050	^	00501	005010

	Version 003050			Version 003060		
	ISA11	ISA12	GS08	ISA11	ISA12	GS08
VICS	U	00305	003050	U	00306	003060
X12	U	00305	003050	U	00306	003060

Please forward this information to the pertinent individuals within your organization, including all 3rd Party EDI providers. Detailed [EDI guidelines](#) are posted on [macysnet.com](#). Any questions may be addressed with our EC Technology Office at 513-782-3073 or 513-782-1805.

Thank you for your continued partnership.
